Shri nav nikaten high school Higher secondary Per : 74%	07/2017 – 04/2019 Bhopal
Shri nav niketan high school Secondary Education Per : 71%	07/2016 – 04/2017 Bhopal

Skills

Technical Skills :

HTML,CSS ,JAVASCRIPT

Soft skills :

Active listening , Teamwork , Adaptability ,
Leadership , Management skills ,
Problem solving-skills

Projects

Image traking system

Requirement Analysis:- Requirement analysis for hardware and software on the AI Image Generator developed using MERN stack.

Software Requirements:

Mongodb :- The system requires MongoDB to store and manage image data and user information.

Express .js :-The system requires Express.js to handle server-side logic and provide a restful API

React.js:-The system requires React.js to provide an efficient and responsive user interface.

Hardware Requirement

Processor :- The system requires a powerful pocessor that can handle complex deep learning algorithms to generate high-quality image quickly.

Graphics :-Processing unit(GPU) Thes system requires a high performance GPU that can handle the intensive computational tasks of image generation

Technology Used

Front End :-React.js

Back End:-Node.js, Express.js

Design:-Css

Certificates

- Online course on Front End Development-HTML by Great Learning
- Online course on Front EndDevelopment-HTML by KG Coding
-

Organizations

Work

Worked as Technical student volunteer for gov. exam

Worked as student volunteer for high school. exam

Interests

Physical activites :

yoga , swimming , horse riding

learning :

learning new techniq which
make my work easy & simple

Languages

- English , Hindi
